December 18, 2006

Karl-Heinz MARX

Novartis Pharma AG
Werk St.Johann Building 103.2.09
CH-4002 Basel
Switzerland

Dear Karl-Heinz,

Thank you for selecting Genpact as one of the two finalists in response Novartis Pharma's Request for Proposal (RFP) for Finance and Accounting and Procurement Operations and giving us an opportunity to conduct due diligence.

The teams conducted the due diligence from 5 -13 December in Novartis Pharma campus in Basel. The objectives of this exercise were

- Validate our understanding of the high level processes for Novartis F&A and Procurement functions for in scope countries in Europe & USA, at a country level.
- Understand and collect information to develop detailed solution for Scanning & workflow for AP and OTC.
- Understand existing process measurements.
- Revalidate RFP response assumptions and incorporate in Best and Final Commercial proposal to Novartis.

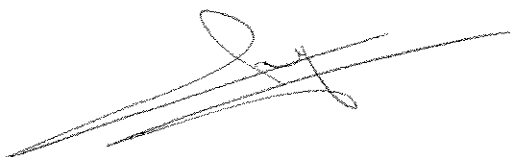

The key findings were presented in Due Diligence close meeting on 14 December; a copy of the report out presentation has been sent earlier.

Based on our request to Novartis, we have been provided information and an opportunity to interact with Novartis personnel made available to us during the due diligence. We have used the information provided during the due diligence to verify and ascertain to the best of our abilities, in our capacity as a diligent service provider to arrive at the following key findings:

- Small changes in FTE numbers by country/process, which have been factored in our BAFO to Novartis. Genpact's revised bid is on 126 FTE.
- Understand the requirement for Scanning & workflow for AP, which has been incorporated in our Solution and our BAFO.
- Ability to track & measure CSL & KM for each process in scope.
- Applicability of Transformation tools across processes were revalidated, & built into the BAFO.
- Volume analysis to be done in detail during the Solution Identification stage at a country level.

It has been a pleasure interacting with the Novartis Pharma teams over the last few months – and we appreciate the invitation to participate in the partner selection process. I would like to take this opportunity to reiterate our eagerness to partner with Novartis Pharma on this initiative, and look forward to further discussions.

Sincerely,

Patrick GOGNY
President & CEO Genpact Europe
